Abstract (en)

A thermal transfer ink sheet having a thin foundation and a thin ink layer, which includes a film made of a polyester resin having an average molecular weight of 12×10^3 to 30×10^3 , the film having a thickness of 1.5 to 3.0 μm and a heat shrinkage ratio of 3 % or lower in the longitudinal direction and 2 % or lower in the transverse direction, and a heat-meltable ink applied on one side of the film in an amount of 1.5 to 2.5 g/m^2 .
