Abstract (en)

[origin: EP0605321A1] The present invention relates to a composition for buccal use containing chlorhexidine in a physiologically acceptable vehicle, characterised in that the chlorhexidine and/or at least one of its salts is associated with the combination of: - an amount a of less than 1% by weight of polyglycerolated dodecanediol containing 3.5 mol of glycerol, and - an amount b of less than 2% by weight of sodium lauryl sulphate, the ratio a/b being greater than 0.1 and less than 1 and the sum a + b being less than 2% by weight relative to the total weight of the composition. It also relates to its use in order to avoid the formation of dental plaque.
