Abstract (en)

[origin: WO9306228A1] A novel form of liposaccharide binding protein (LBP) is disclosed. This protein can be prepared recombinantly and is useful in stimulating the immune system.

Abstract (fr)

L'invention se rapporte à une nouvelle forme de protéine fixatrice des lipposaccharides, appelée LBP. Cette protéine peut être préparée par recombinaison et sert à stimuler le système immunitaire.
