Abstract (en)

[origin: WO9307231A1] Certain compositions of pentafluoroethane and chlorodifluoromethane have unusual efficiency and capacity as fluids for heating and cooling. Such compositions may include additives such as lubricants and solubility enhancers for lubricants such as propane.

Abstract (fr)

L'invention concerne certaines compositions de pentafluoroéthane et de chlorodifluorométhane présentant une efficacité et une capacité inhabituelles à chauffer et refroidir, telles que des fluides de chauffage et de refroidissement. Ces compositions peuvent comporter des additifs tels que des lubrifiants, certains de ces additifs tels que le propane améliorant la solubilité des lubrifiants.
