Abstract (en)

[origin: WO9305670A1] A hand covering in the form of a glove is provided which provides protection against cutting, puncturing and lacerations as well as thermal insulation for protection against burning of the user's hand by grasping hot objects. A knobbed silicone surface is formed on the palm portion of the glove to enhance the heat insulating and gripping abilities of the glove.

Abstract (fr)

Le gant décrit assure une protection contre les coupures, les perforations et les lacérations, ainsi qu'une isolation thermique qui protège des brûlures la main d'un utilisateur saisissant des objets chauds. Une surface siliconée munie de picots est formée sur la partie paume du gant pour améliorer son isolation thermique et son aptitude à la préhension.
