Abstract (en)
Anti-noise wall intended to block the propagation of sound waves, the said wall consisting of panels incorporating acoustically insulating elements, the said panels being connected to each other by posts (13) anchored to the ground, characterised in that the posts have a substantially U-shaped cross-section, including a cross-piece (131) and two side wings (132), the said panels being attached to the posts on their side wings. The internal volume of the posts is preferably filled with an acoustically insulating material which may be sand. <IMAGE>

Abstract (fr)
Mur antibruit destiné à stopper la propagation d'ondes sonores, ledit mur étant constitué de panneaux incorporant des éléments acoustiquement isolants, lesdits panneaux étant reliés les uns aux autres par des poteaux (13) ancrés au sol, caractérisé en ce que les poteaux présentent une section sensiblement en forme de U comprenant une âme (131) et deux ailes latérales (132), lesdits panneaux étant assujettis aux poteaux sur leurs ailes latérales. De préférence, le volume intérieur des poteaux est rempli avec un matériau acoustiquement isolant qui peut être du sable. <IMAGE>
