Abstract (en)

The arrangement comprises one or more anchoring means (3) formed by a flexible member (4) and a retaining body (5), which are located in points of the periphery of the concealed portion of the cover (1) corresponding to the seat cushions (2). The longitudinal dimension of the flexible member (4) is of the order of the height of the cushions (2) and the major dimension of the retaining body (5) is greater than the width of the groove between the cushions (2) and between the latter and the inner edges of the seating surface of the cushions (2). <IMAGE>
