Abstract (en)

[origin: EP0610537A1] The invention relates to a folded cardboard package including front and rear panels (2) and side panels (5) between the said front and rear panels, and flaps forming the bottom and the top of the said package, and having a recloseable closure (19) of substantially prismatic shape including a hinge line (20) on the top of the said package and pre-cutout lines (21) on the front and rear panels ending on the said hinge line and on one of the side panels (5) having a cutout line (23), the closure including, under the cutout line of the abovementioned side panel and integral with the latter, a pre-cutout gripping tab (24) comprising a locking tab (25) provided in order to engage in a slot formed in a layer of cardboard arranged on the said side panel under the said gripping tab. <IMAGE>
