Abstract (en)

[origin: EP0614726A2] The invention relates to a grinding device, in particular for working off concrete and natural stones, having a milling ring equipped with grinding elements, and recommends that the grinding elements (2) be rigidly fixed in the axial direction on the heads of screws (3) and that the screws (3) be screwed into the milling ring (1) in the axial direction and be accessible from the side of the grinding elements.
