Abstract (en)
[origin: EP0615028A1] The invention proposes a municipal cleaning vehicle for flushing out and cleaning sewers and tanks and the like, comprising a tank (10) having a sludge compartment (11) and a service-water compartment (12) which can be connected to a flushing hose (14) through which, by means of a pump device (15), water is delivered to that end of the flushing hose (14) which is provided with a nozzle head (16). In this arrangement, the water (19) which is delivered in a flushing hose (18) by means of a pump device (17) is heated by a heating means (20) before it is discharged out of the flushing hose (18). <IMAGE>
