Abstract (en)

A machine is described for the washing and/or drying of laundry comprising: a front loading door (10) that, in particular, in the closed position results in being significantly flush with the frontal wall of the cabinet of the machine, a hinge, for the hinging of said door (10) to said cabinet of the machine. The main characteristic of the machine for the washing and/or drying of laundry as described is that said hinge is an articulated hinge (1-7, 11-16) having a rotary and translational movement. <IMAGE>
