Abstract (en)
[origin: EP0616947A1] In a hand-held labeller (1) for dispensing and affixing labels, with a hand lever mounted pivotably on a housing (2) and driving a transport device (6), operation is optimised in that the hand lever (7) consists of at least two constructional elements, the first constructional element being designed as a grip shell (12) fixed pivotably to the housing (2), and a grip part (13) being mounted movably, especially pendulously, as a second constructional element in the grip shell (12). <IMAGE>
