Abstract (en)
[origin: US5613638A] A hand shower containing a shower head, a handle and a connection for the shower hose, has in the interior of its handle an insert part, which in the vicinity of its one end is connected to a line leading to the shower head and in the vicinity of its other end has the connection for the shower hose. The insert part can be used as a mounting support for different functional elements or can be part of different functional elements.
