Abstract (en)  
[origin: EP0621365A1] The invention relates to a sole of an electric steam iron. According to the invention, the sole (1) includes, furthermore, on its lower face (9), from the point (3) towards the heel (20), after the first vaporisation area (14), a first drying area (16), devoid of steam outlet orifices, and extending transversely between the lateral edges (30 and 40) of the sole (1), this said first drying area (16) being followed by a second vaporisation area (17) extending transversely between the lateral edges (30 and 40) of the sole (1) and in which the steam outlet orifices (10) emerge, the said second vaporisation area (17) itself being followed by a second drying area (18) devoid of steam outlet orifices and extending over the entire remaining rear surface of the sole. <IMAGE>
