Abstract (en)
[origin: EP0622043A2] Shower partition (21) for partitioning a shower cubicle, having at least one door (23, 25) which is fastened on a supporting column (29) so as to be pivotable about a pivot axis (30) such that a first door region (I) for opening or closing a reach-through opening and a second door region (II) for opening or closing a step-through opening can be pivoted in opposite directions, the supporting column (29), for fastening on a side wall (33, 35) adjacent to the door (23, 25), being connected to at least one bracket (31), - the pivot axis (30) coinciding with the longitudinal axis of the supporting column (29) and being arranged at a distance from the door (23, 25); and - the bracket (31) being arranged, between an upper door border and a lower door border, outside the showering area in a region at a distance in front of the reach-through opening (43). <IMAGE>
