Abstract (en)

[origin: EP0622312A2] 1. A wrapper made of thin card for a multiplicity of small cuboid boxes, in particular cigarette boxes (10). 2.1. In order to accommodate cigarette boxes (10) of smaller dimensions, namely height, in a wrapper having standard, that is to say larger outer dimensions, a bottom wall (23) is set back inwards corresponding to the height of the cigarette boxes. A free compensating chamber (26) is produced below the bottom wall (23). 2.2. The compensating chamber (26) which is open at the bottom is surrounded all-around by a dual-walled edge. <IMAGE>
