Abstract (en)  
The invention relates to the use of water-softening compositions which contain (a) biodegradable copolymers, (b) inorganic water-softening silicates and, where appropriate, (c) further inorganic salts, (d) dispersants and complexing agents and (e) surfactants as well as other customary additives. These compositions are distinguished by better biodegradability.

Abstract (de)  
Die Erfindung betrifft die Verwendung von wasserenthärtenden Formulierungen, die (a) biologisch abbaubare Copolymeren, (b) anorganische wasserenthärtende Silikate und gegebenenfalls, (c) weitere anorganische Salze, (d) Dispergier- und Komplexierungsmittel und (e) Tenside sowie weitere übliche Zusätze enthalten. Diese Formulierungen zeichnen sich durch eine verbesserte biologische Abbaubarkeit aus.
