Abstract (en)
[origin: WO9311209A1] Homogeneous electroviscous liquids contain or are composed of aluminium soaps on the basis of reaction products of one or several polycarboxylic acids or their anhydrides or semi-esters with aluminium alcoholates. Such liquids have a high electro-rheological activity and are totally homogeneous.

Abstract (fr)
Des liquides électrovisqueux homogènes contiennent ou sont constitués par des savons d'aluminium à base des produits de réaction d'un ou de plusieurs acides polycarboxyliques ou de leurs anhydrides ou semi-esters avec des alcoolats d'aluminium. Ces liquides ont une haute activité électro-rhéologique et sont complètement homogènes.
