Abstract (en)

[origin: WO9315486A1] The proposal is for a receiving device for the reception of information transmitted wirelessly, especially with the aid of i/r light signals, in which the information is transmitted by a battery-operated transmitter having an indicating device which emits a corresponding signal on completion or non-completion.

Abstract (fr)

Dispositif permettant de recevoir des informations transmises sans fil, notamment au moyen de signaux lumineux à infrarouge, dans lequel les informations sont émises par un émetteur actionné par une batterie et qui comporte un dispositif indicateur fournissant un signal correspondant, que le processus soit complet ou non.
