Abstract (en)  
[origin: EP0626150A1] The invention relates to a dust-bag support (1) placed inside a vacuum cleaner and comprising a handle (2) intended for grasping the said dust-bag support (1), an opening (3) intended for supporting the lateral edges (4 and 4') of a collar (5) of a dust bag (6) and attachment means (7) capable of engaging with the said collar (5). According to the invention, the said dust-bag support (1) also includes a means (9) for unlocking the attachment means (7) which is integral with a manoeuvring member (10) carried by the said support (1) and controlling ejection of the used dust bag (6). <IMAGE>
