Abstract (en)
[origin: DE4205121A1] A process for winding hair strands (20) for permanent waving is disclosed. The hair tips (21) in a hair strand (20) are secured in the area of a holding strip (1, 50) located near the head, below the upper edge (6) of the holding strip (1, 50), and the holding strip (1, 50) is wound together with the hair strand (20) secured thereto by means of a curling device (12, 13) which is then removed. The holding strip (1, 50) forms the curler (30, 110).
