Abstract (en)
[origin: EP0627794A1] An electrical connecting distribution block having plug parts (3, 4, 5) (which are connected to one another and are arranged in the housing (6) having contact part receptacles in planes lying one above the other) for operation of a large number of branching cables (having a small number of poles) from a feed point (1a) having a greater number of poles, the lowest plane being constructed as a plug having a higher number of poles, and the planes lying above it in each case having only contact receptacles corresponding to the number of poles of the cables branching off. <IMAGE>
