Abstract (en)

[origin: WO9316673A1] A blister pack for tablets or capsules having a flexible plastic sheet (1) thermoformed to define a plurality of open faced pockets (2) each pocket being shaped to receive an individual tablet or capsule, the open faces of the pockets being closed by a sheet of aluminium foil heat sealed to the plastic sheet, characterised in that hinge means (5) are provided across the pack on a line about which the pack is substantially symmetrical, the two halves of the pack on either side of the hinge being adapted to be folded together with the area of aluminium foil of each said halves overlying the other whereby the aluminium foil is protected from accidental damage that might be caused by contact with a hard object, resealable fastening means (6, 7) being provided to maintain the pack in a folded configuration.
