Abstract (en)

[origin: WO9404343A1] Tubular bodies for packaging tubes must satisfy particular esthetic requirements. Extruded tubes satisfy such requirements better than tubes made of wound foils with a soldering seam. A process is disclosed for manufacturing a tube made of wound foils whose esthetic characteristics largely correspond to those of an extruded tube.

Abstract (fr)

Les corps tubulaires pour tubes d'emballage doivent satisfaire à des exigences esthétiques particulières. Les tubes extrudés répondent mieux à ce genre d'exigences que les tubes en feuilles enroulées avec un cordon de soudure. Un procédé permet de fabriquer un tube en feuilles enroulées dont les caractéristiques esthétiques correspondent dans une large mesure à celles d'un tube extrudé.
