Abstract (en)
[origin: US5501156A] PCT No. PCT/EP93/02253 Sec. 371 Date May 4, 1994 Sec. 102(e) Date May 4, 1994 PCT Filed Aug. 21, 1993 PCT Pub. No. WO94/05860 PCT Pub. Date Mar. 17, 1994. A curved guide rail for passenger and material transportation systems in which sheet-metal plates (3), wedged against one another, are arranged in a row on a prestressed rope (2) and the spaces in-between are bridged by an overlapping tooth construction (5), so that the guide rail can be curved as desired prior to being braced.

Abstract (fr)
L'invention concerne un rail de guidage courbé pour des installations de transport de personnes et de matériaux, dans lequel des plaques de tôle (3) calées les unes contre les autres sont alignées sur un câble (2) précontraint. Les intervalles sont pontés par des dentelures (5) qui se chevauchent, de manière à pouvoir imprimer au rail de guidage la courbure voulue avant de le mettre en tension.
