Abstract (en)
[origin: EP0628272A1] Equipped wall structure comprising a metal frame (10) including at least two parallel and each other aligned uprights (12, 14) defining a vertical plane , being each of the uprights (12, 14) interconnected to the adjacent upright by at least two crossbars (16) and resting between each of at least two uprights (12, 14) and crossbars (16) at least a panel (32) of wood or similar material. This structure serving to manufacture both simple face walls (40) leaning against a room wall and double face or center walls (140) leaning, with a first edge thereof, against a room wall or the back of a simple face wall (40) and with a second edge against a foot (150) resting on floor. Are also described means (42, 44) to fasten to the above described equipped walls various fittings comprising brackets (62, 64), support planes (74), hanger means (80, 82) etc. <IMAGE>
