Abstract (en)

[origin: EP0629932A1] Timepiece with a date indicator (1) with internal toothing moving angularly one notch each day, at least one rotary indicating means (12) driven by the said date indicator and intended to indicate cyclic parameters such as the date, the lunar phase, the "cash balance", etc. Several types of indication, all controlled by the date indicator, make it possible to produce a panoply of watches, of simple construction, with various display combinations. <IMAGE>
