Abstract (en)
[origin: WO9319454A1] There is disclosed a harpsichord mechanism for a piano having strings (13) each with an associated key (11), hammer (12) and damper (17), the damper (17) being lifted off the string (13) by depression of the key (11), said mechanism comprising, for each string (13), a plectrum-holding jack (24) movable with respect to the string (13) so that the plectrum (25) plucks the string (13) while the damper (17) is lifted off the string (13) by depression of the key (11).
