Abstract (en)

[origin: FR2688652A1] Tatooing device for marking piglets or other animals. The device according to the invention consists of a plate (1) mounted on the end of a handle (2). The plate (1) includes a groove (3) for receiving the marking characters and means for blocking them in position. The characters, which can be numbers or letters or any other sign, consist of spaced apart points fixed onto plates which engage in the plate groove, the points forming the shape of numbers or letters or any other sign.
