Abstract (en)
A guarantee seal of the type that consists of a flexible strip (1), one end of which terminates in a head (2) provided with means that cooperate with means provided on the other end (3) of the strip to prevent said strip from being extracted once it has been inserted into the head, said means of the head consisting of two internal teeth (9), each of which defines a notch (12), and two openings at the bottom, and said means of the opposite end consisting of an elastically deformable terminal in the shape of an arrowhead comprising two converging branches (6) each of which is provided with teeth (8) at the diverging ends, said teeth cooperating with the notches (12) of the head. <IMAGE>
