Abstract (en)

[origin: WO9414657A1] The invention relates to a method for packaging a product for sterilization effected by irradiation and a sterilized package, wherein the product (1) is enclosed in a substantially gas impermeable package (2). The invention is characterized in that the product (1) is placed in the package (2), the package is deaerated and filled with a protective gas, whereafter the package is sealed for sterilization by irradiation.
