Abstract (en)

A wall furniture item comprises at least one pair of attachment devices (14) for attachment to a retaining element (20, 22) fixed to the wall, in which each of said attachment devices (14) comprises a coupling element (15) position-adjustable in terms of both depth and height and arranged to engage said retention element (20, 22) fixed to the wall. According to the invention, the coupling elements (15) of said attachment devices (14) are interconnected by a bar (19) to be hooked to said retention element (20, 22) fixed to the wall. <IMAGE>
