Abstract (en)

[origin: EP0636552A2] The hermetic closure comprises a cap assembly (10) provided with a cap (1) which, when unscrewed, cause a breakage of struts (5) and a detachment of a safety strip (4), and also comprises a seal which, when the cap assembly (10) is inserted on a container, guarantees a seal on a lateral wall of a dispenser (7), even when the cap (1) is subject to small axial displacements with respect to the container.
