Abstract (en)  
[origin: WO9322088A1] A method of casting an article in a thermosetting material utilising a mould (M1) having a casting cavity (1a &cir& \_ ) corresponding to the configuration of the item to be cast, and a reservoir cavity (6, 7) communicating with the casting cavity (1a &cir& \_ ), the method comprising introducing molten thermosetting material into the casting cavity (1a &cir& \_ ) and the reservoir cavity (6, 7), permitting cast material in the casting cavity (1a &cir& \_ ) to initially cool and at least partially solidify whilst applying heat from an extrinsic source (8, 9, 9A &cir& \_ ) to the material in the reservoir cavity (6, 7).
