Abstract (en)

[origin: EP0638490A1] The invention relates to a separation unit (10) for waste and valuable materials, having a plurality of waste containers (11) which are connected to each other and which, for the purpose of allocation to a particular fraction of valuable material or residue, are equipped with identifying means (12) marking these waste containers. The separation unit for waste and valuable materials is of a modular adaptable design.
