Abstract (en)

[origin: EP0639663A1] A new method and a new apparatus for the treatment of foreign bodies during bale stripping are presented. For this purpose, in addition to a foreign-body recognition unit (7) a foreign-body removal unit (8) is provided, and the two units can be provided either on the same side or on both sides of the stripping member (4) of the bale-stripping machine (1). <IMAGE>
