Abstract (en)  
[origin: WO9322006A1] Golf club having a striking face (11) which forms a face angle (b) with a plane (V) passing through the shaft axis and parallel to a lower edge (12) of said striking face (11). The golf club combines a shaft length which approximates that of a no. 2 iron, i.e. approximately 99 cm, a face angle (b) of approximately 36 corresponding to a no. 6 or no. 7 iron, and a head mass of approximately 250 g corresponding to a no. 4 iron. The invention is used to produce long and high trajectories.
