Abstract (en)

The invention relates to a suspension device (101) for suspending and lighting prints, paintings and other objects to be exposed to view, the device comprising a suspension rail (103) for movably arranging suspension elements (28) for the objects to be suspended, the suspension rail (103) forming a unit with a live conducting rail (104) for at least one lighting device, which can be moved independent of the objects to be exposed to view.
