Abstract (en)

A ropeway, especially a chair lift with disengageable grips 15, is equipped with a device for stabilising the grips at the approach of a stationary support 12 particularly at the entrance of a station. This device comprises stabilising rails 25, 26 arranged in front of the stationary support in order to bring the grip progressively into the correct position. The height position of these rails is adjustable automatically as a function of the position of the rope 10. <IMAGE>

Abstract (fr)

Un téléporteur, notamment un télésiège à pinces débrayables 15, est équipé d'un dispositif de stabilisation des pinces à l'approche d'un support fixe 12, en particulier à l'entrée d'une station. Ce dispositif comprend des rails de stabilisation 25, 26, disposés à l'avant du support fixe pour amener progressivement la pince en position correcte. La position en hauteur de ces rails est réglable automatiquement en fonction de la position du câble 10. <IMAGE>
