Abstract (en)

[origin: EP0640718A1] A railway track on a continuous supporting slab (16) is proposed, the supporting slab (16) being provided with at least one longitudinal groove (40) and the sleepers (20) of the railway track being fastened to the supporting slab with the aid of fastening means (26) anchored in the longitudinal groove. This results in simple production and assembly or disassembly of track length. <IMAGE>
