Abstract (en)

[origin: EP0641879A1] In a method for knitting Intarsia patterns on flat-bed knitting machines, by simple handling fault-free patterned knits are produced by fixing the Intarsia thread knitting in the Intarsia region (I) at the start and at the end of the Intarsia region (I) by means of a stitch. Fixing is preferably carried out by transferring a stitch previously knitted with the Intarsia thread on one needle bed (h) onto the other needle bed (v) and by the subsequent knitting of the Intarsia thread on the other needle bed (v) in the Intarsia region (I). <IMAGE>
