Abstract (en)
[origin: EP0791908A2] A device for placing information/advertising (1) on the filler gun (2) of a fuel pump, comprising a carrying body (3) having at least one display surface (4) for said information/advertising placed over the head of said gun. The carrying body (3) extends in the longitudinal direction of the gun head and comprises an attachment component (5) which grips around the whole of or part of said gun head and/or the barrel of the gun. The attachment component (5) comprises, in a simple embodiment, an attachment band (5a) fixed to the underside of the carrying body (3) by means of expedient means, e.g., an eye/groove (6). The display surface (4) of the carrying body (3) lies in a recess (11) for the accommodation of the information/advertising label (1), which can be protected by means of a transparent cover plate (12) having pins (13) which interact with securing apertures (14) in an upwardly projecting edge (10) which forms the recess (11). <IMAGE> <IMAGE> <IMAGE>
