Abstract (en)

The invention relates to an item of individual (personal) protective equipment which comprises an outer protective garment made of ceramic and/or metal over a flexible textile base (substrate). The outer protective garment is advantageously produced using a hot spray technique.

Abstract (fr)

L'invention concerne un équipement de protection individuelle, comportant un revêtement extérieur protecteur en céramique et/ou métallique sur un substrat textile souple. Le revêtement extérieur protecteur est avantageusement obtenu par une technique de projection à chaud.
