Abstract (en)

The gang saw (multiple-blade supporting structure) includes four support devices produced using pairs of crossed links (4 and 5) which connect the rockers (3) to the supports (6 and 7) rendered integral with the blade holder (10) by the soleplates (8), with the advantage of considerably increasing the radius of curvature of the stroke of the blade holder during oscillation. <IMAGE>

Abstract (fr)

Le bâti multi-lames comporte quatre dispositifs de support, réalisés à l'aide de paires de bielles croisées (4 et 5) qui relient les balanciers (3) aux supports (6 et 7) rendus solidaires du porte-lames (10) par les semelles (8), avec l'avantage d'augmenter de façon considérable le rayon de courbure de la course du porte-lames durant l'oscillation. <IMAGE>
