Abstract (en)

[origin: EP0645250A2] In order to be able to set up and operate a printing machine (1) with a control panel (2) in a more universal manner, it is proposed according to the invention that the housing (6) or the like of the printing machine (1) has a panel receiver (3) to receive the removable control panel (2), the latter being connected via a cable (9) or, without a cable, via at least one infrared transmitter to the components of the printing machine (1) to be controlled, and the control panel (2) is fixed in the panel receiver (3) by means of at least one magnet (10) at least in the pulling-out direction. <IMAGE>
