Abstract (en)
[origin: EP0645943A1] The invention relates to an operating device for electric lamps. The connecting part (3), provided with the electrical connections (4), of the operating device is designed as an insert and is inserted in a receptacle of the housing (1). The operating device can optionally be provided with connecting terminals or with connecting cables (4) by replacing the connecting part (3) without changes to the construction of the housing being required. <IMAGE>
