Abstract (en)  
[origin: WO9325162A1] The invention concerns a single-component or multi-component applicator system for the application of plastic compounds from a container. The applicator system (10) has a tapered outlet pipe (16), which is designed to fit the container, and a tube-shaped applicator (30), none of the inside surfaces of any of the applicator-system components having necks or shoulders which could affect the application of the plastic compound.
