Abstract (en)
[origin: WO9401418A1] Described are triazolybutane derivatives of the formula (I), in which A may be a keto group or a CH(OH) grouping and R may be alkyl, optionally substituted cycloalkylalkyl, alkenyl, alkynyl or haloalkenyl (with the exception of 3-chlorobut-2-en-1-yl), as well as acid addition salts and metal-salt complexes thereof. Also described are a method of preparation of such derivatives and their use as fungicides, as well as intermediate used in the preparation, a method of preparing such intermediates and their use in the synthesis of triazolybutane derivatives of the formula (I).
