Abstract (en)

[origin: WO9402379A1] An integrally formed bottle or jug carrier strap (10) for securely and comfortably carrying a pair of bottles or jugs (12) by their neck (14). An elongate grip (16) has rings (18) at each end and a neck-retaining collar (20) attached to the inner circumference of each ring. Scores (36) on the underside (42) of each ring cause the ring (18) to break at the score (36) when the rings (18) are deformed, permitting the bottle or jug (12) to easily be removed from the carrier strap (10).
