Abstract (en)  
[origin: WO9400652A1] A prefabricated structural wall unit for houses, comprising a load-carrying reinforced concrete panel (2) and a rigid insulating material (4) in abutment against the broad face (3) and secured to said broad face (3) by means of thin bars (11) of thin galvanized sheet metal, said bars having flanges (14) in abutment against the face (13) of the insulating material (4) that is turned away from said broad face (3), and also anchoring members (15) which are embedded into the concrete of the panel (2) and extend transversely to and through the insulating material (4).
